

Question Bank for IA 1:

Define Active and Passive Attacks.

Discuss Goals of Security.

Explain Euclidean algorithm.

Explain Substitution and Transposition techniques.

Difference between Monoalphabetic and Polyalphabetic substitution techniques.

Explain Vigenere cipher.

Explain Data Encryption Standard algorithm.

Explain with examples Keyed and keyless transposition ciphers.

Explain ECB and CBC modes of block cipher.

Explain types of Attacks.

Explain Security Goals.

Explain Principles of Block Cipher.

Difference between Substitution and Transposition techniques.

Explain Monoalphabetic and Polyalphabetic substitution techniques.

Explain Ceasar cipher.

Explain with examples Keyed and keyless transposition ciphers.

Explain Cipher feedback and Output feedback mode of block cipher.

Any Example on playfair cipher and Hill cipher
