

IA-II QB

Module 4

- 1 Explain Ad-hoc and Infrastructure network.
- 2 Draw a neat sketch of Bluetooth protocol Stack and explain the same
- 3 Explain Bluetooth architecture.
- 4 Explain Piconet and Scatternet topology of Bluetooth with application.
- 5 Write short note on WEP and WPA.
- 6 Discuss in detail Wi-fi security protocol?

Module 5

- 7 Define tunneling in Mobile IP.
- 8 Explain reverse tunnelling.
- 9 Explain FMIPv6 approach used for macro mobility.
- 10 Explain the need for micro mobility and describe Cellular IP and HMIPv6
- 11 Describe optimization in detail.

Module 6

- 12 Explain VoLTE.
- 13 Compare LTE and LTE advance.
- 14 Define a Self-Organizing Network (SON) and list its key architectural components.
- 15 Explain different components used in LTE architecture with diagram.
- 16 Explain SAE architecture.
